## 01. Movement Count

Aktivsens count your movements throughout the day. It records each physical activity, such as steps taken or shakes, to provide real-time movement data

## 02. Activity Tracking

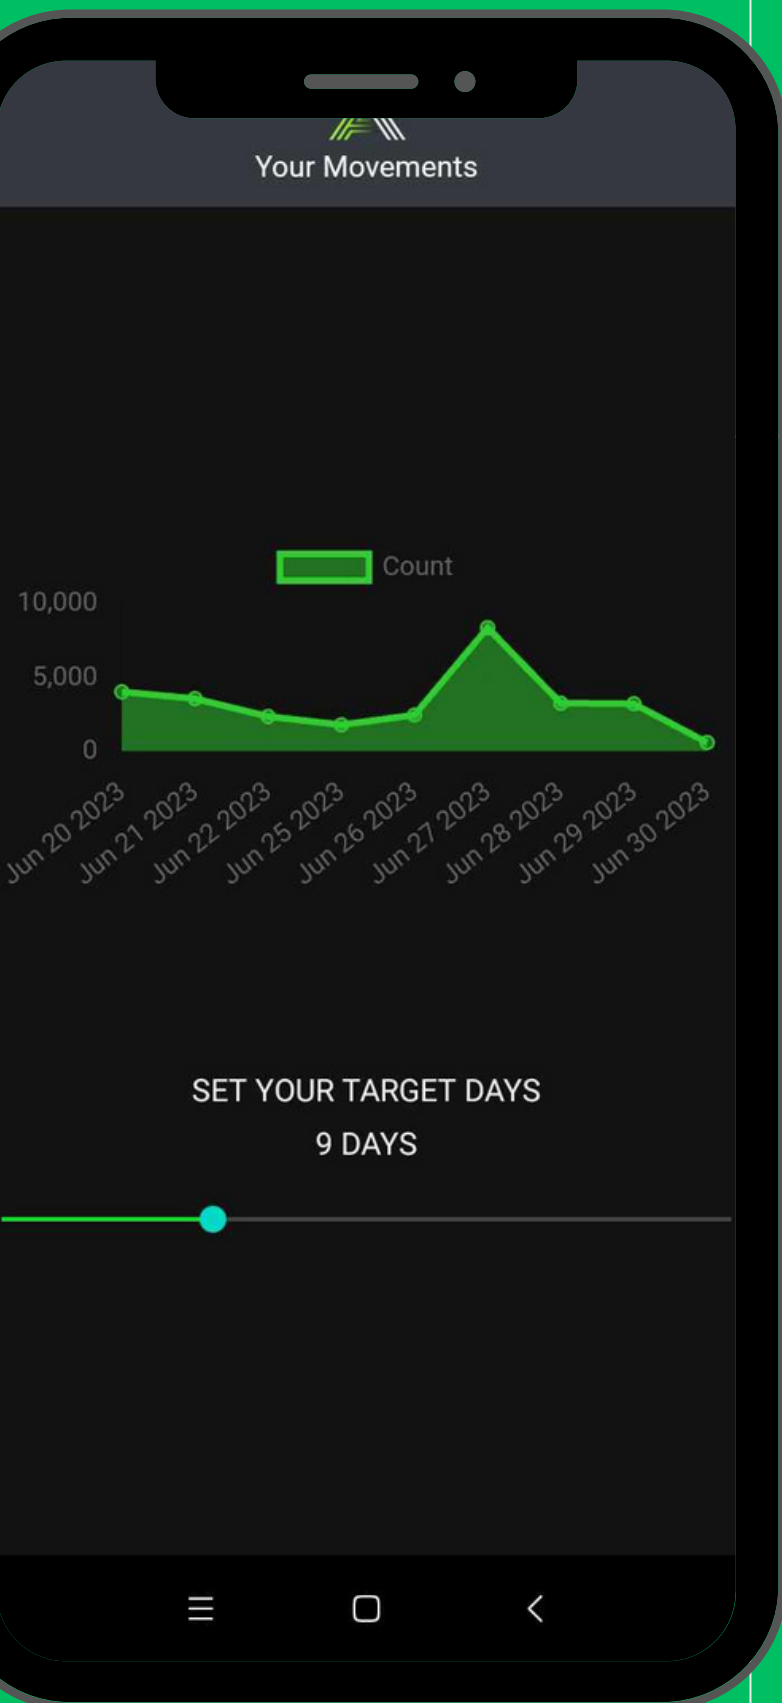

Effortlessly track your daily physical activities, including calories burned, distance traveled, and movement time. The app offers valuable insights into your fitness progress.

## 03. Suggestions

Generates health suggestions based on your movement count. These helpful tips aim to improve your overall well-being and motivate you to lead an active lifestyle.

## 04. History Button

Allows you to view your daily movement count records. It presents a chronological summary of your past activities, helping you monitor your progress over time.

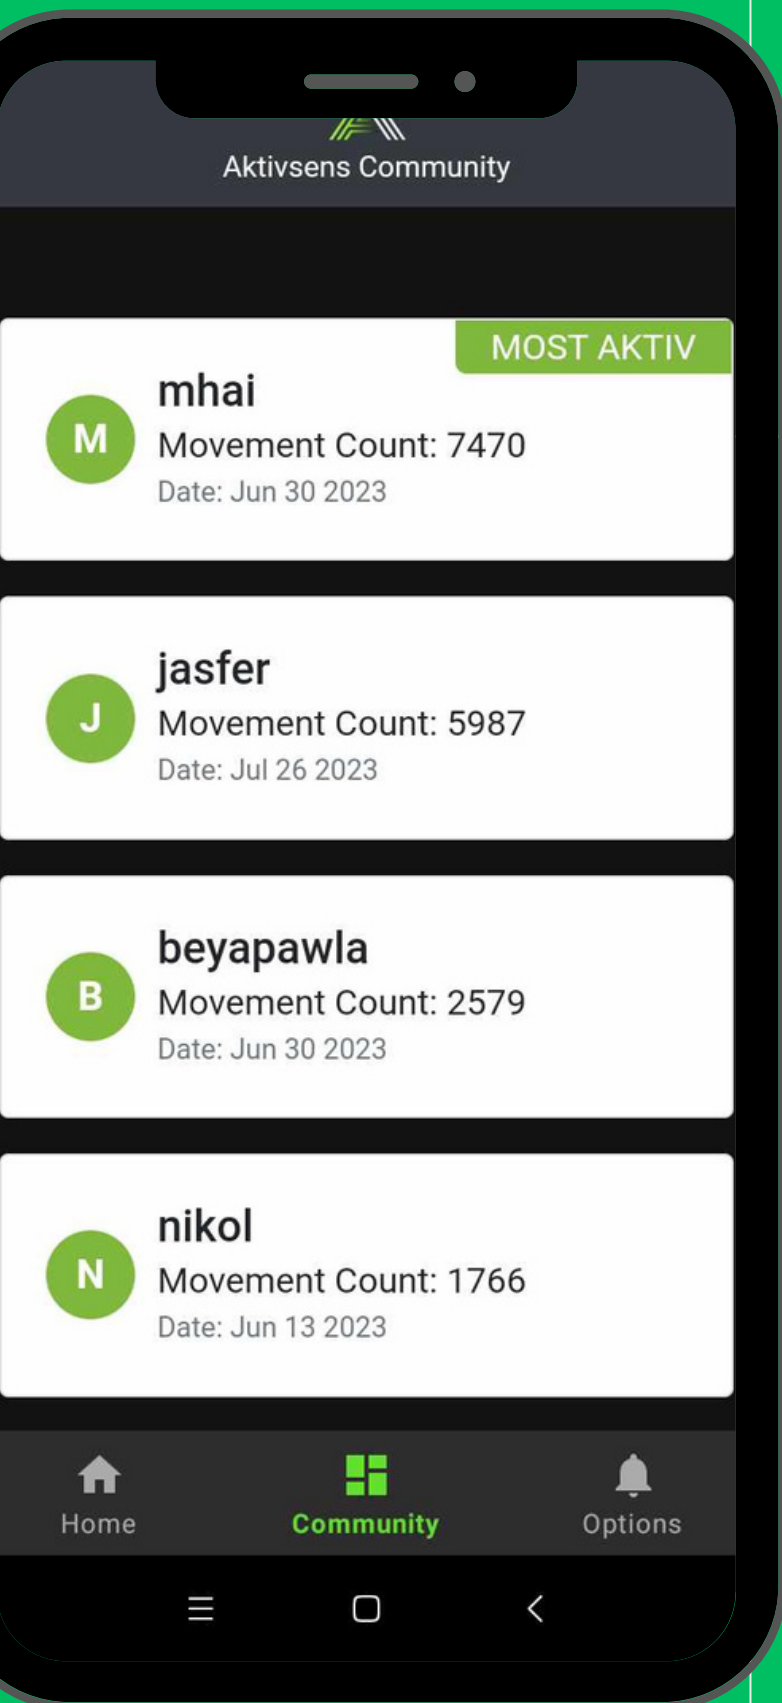

# History Screen

## 01. History Graph

Aktivsens displays your movement count history in an easy-to-read graph format. You can visualize your activity trends and compare performance across different days.

## 02. Target Days Slider

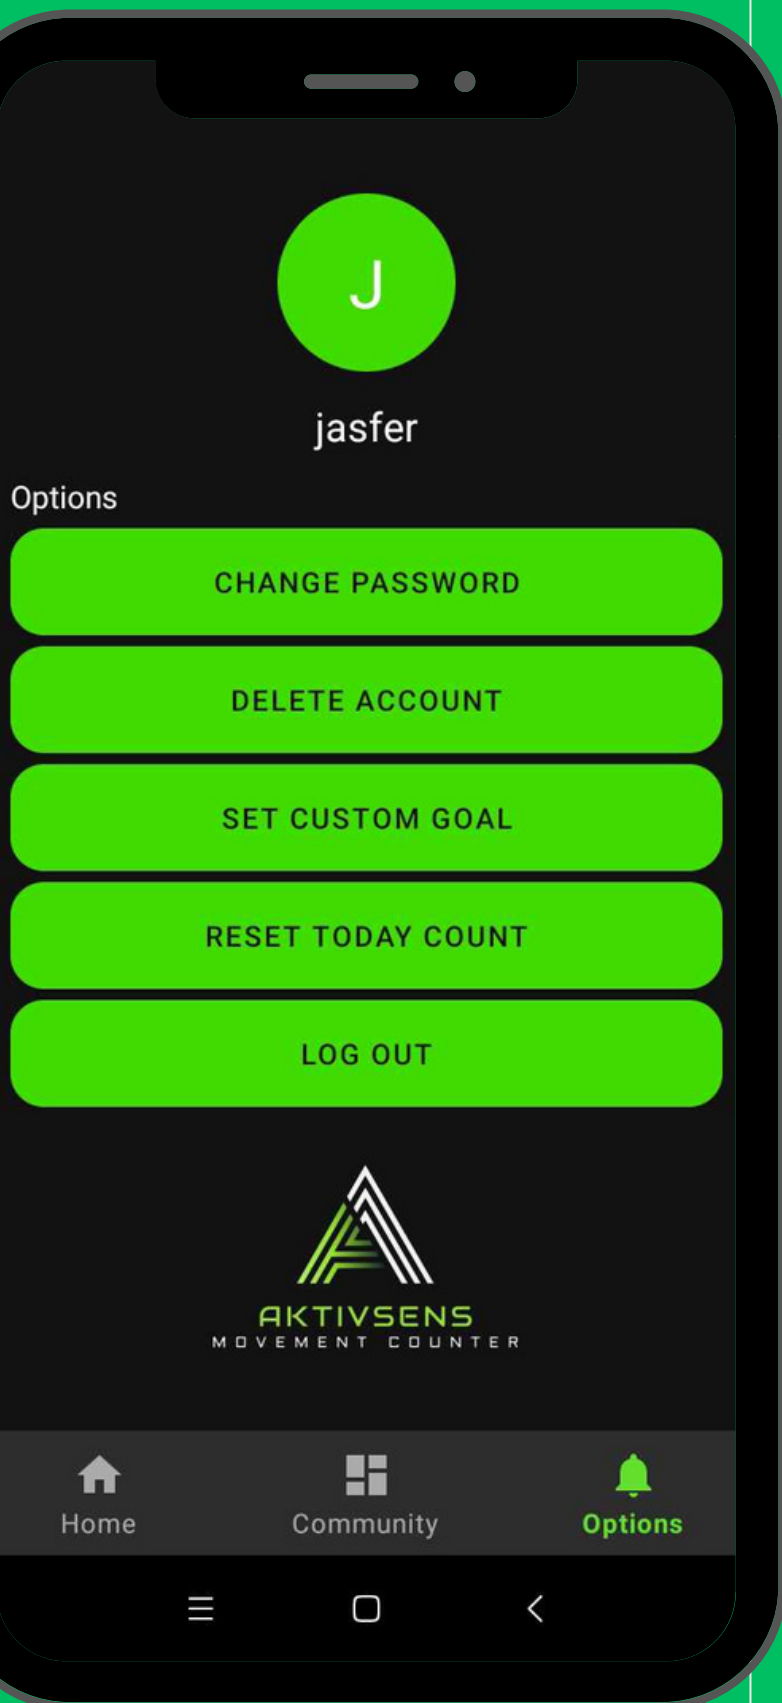

This feature enables you to adjust the number of days you want to see in the history graph. Simply slide the control to set a custom range and analyze your activity patterns efficiently.

# Community Screen

## 01. Community Leaderboard

Aktivsens includes a dynamic leaderboard that showcases users with the highest movement counts. Compete with others and stay motivated by seeing your rank in the community.

# Options Screen

## 01. Change Password

You can update your account's password securely through this feature, ensuring the safety of your personal data.

## 02. Delete Account

You can update your account's password securely through this feature, ensuring the safety of your personal data.

## 03. Set Custom Goal

With Aktivsens, you can set your unique fitness goal. The app tracks your progress towards achieving this target and provides relevant feedback.

## 04. Reset Today Count

If you want to start afresh for the day, you can reset the movement count to zero, allowing you to accurately track your activities from scratch.
